SKILLS

- Flutter
- Dart
- Bloc
- Provider
- REST Api
- Python
- Django
- API Integration
- Java
- Android
- XML
- HTML
- CSS
- Java Script
- State Managment
- Dio
- RFID Intigration
- Github
- Material UI

EDUCATION

Bachelor's of Technology

J.C Bose University

2019-2023

CGPA - 8.1

Senior Secondary Examination

Aggarwal Public School

2017-2019

Percentile - 67%

PROFILE

Flutter Developer with 2+ years of experience designing, building, and shipping high-performance cross-platform mobile applications. Proven ability to translate UI/UX designs into responsive, intuitive user experiences using Dart and the Flutter framework. Collaborative team player dedicated to writing clean, maintainable code and optimizing app performance to meet business objectives and enhance user satisfaction.

WORK EXPERIENCE

Flutter Application Developer

Paramount Product Private Limited — Jan 2024 - Present

- **Led full-lifecycle development of PPMS**, a cross-platform solution engineered to digitize and automate complex garment manufacturing and export operations.
- **Architected a real-time Garment Audit module**, implementing rigorous Quality Assurance workflows to ensure export-grade standards and minimize production defects.
- **Integrated a hardware-level RFID scanning system** to provide granular, **end-to-end visibility** across the supply chain, from raw material intake to final shipment.
- **Developed a Machine Maintenance & Repair ecosystem,** featuring an **automated request-and-approval pipeline** to minimize factory downtime and optimize asset lifecycle management.
- **Built a smooth API-driven flow** that pulls updated records from the database and presents them directly in the app for users.

Web Developer

Paramount Product Private Limited — Jan 2024 - April 2024

- **Full-Stack Django Engineering**: Architected and deployed scalable web applications using Django, implementing complex backend logic, secure database management, and high-performance **RESTful APIs.**
- **Frontend Optimization**: Crafted responsive, cross-browser compatible interfaces using **HTML5, CSS3, and JavaScript**, ensuring a seamless and intuitive user experience across all devices.
- I**nfrastructure & Reliability**: Managed server environments and web services, performing security audits and performance tuning to ensure high availability and 99.9% system uptime.

Android Developer Trainee

SignCatch — Jan 2023 - July 2023

- **Architected Native UI/UX**: Engineered high-fidelity interfaces using **Java, Kotlin, and XML**, adhering to Material Design standards to ensure a responsive and intuitive user experience.
- **End-to-End API Integration & QA**: Managed the seamless integration of **RESTful services**, implementing rigorous testing protocols to ensure stable data synchronization and zero-fault application performance.

PROJECT UNDERTAKEN

- **Food Delivery App (Flutter, Dart, Provider)**: Developed a modern Food delivery application using dart and state management for the daily ise of the user
- **Music Player App (Flutter,Dart,Provider)**: A classic Music player application for the daily use
- **Weather App (API Integration, Java, XML)**: Developed a comprehensive Weather App leveraging weather APIs for real-time updates and forecast predictions. Implemented location-based weather updates and user-friendly interfaces, demonstrating proficiency in API integration and UI development.
